## STYLES OF WOODEN FLOOR (STRIP, PLANK & PARQUET)

There are three styles of wood floors available on the market today: strip, plank, and parquet. Each style is available in a variety of species, colors and widths, so choosing the right style simply is a matter of which look you prefer.

### Parquet Flooring

Parquet flooring comes in size 35x10x140 m.m Parquet is a geometric mosaic of wood pieces used for decorative effect. The parquet floor to create a unique and eye-catching pattern. The patterns of parquet flooring are entirely geometrical and are visible as angular squares, triangles, lozenges. The most popular parquet flooring pattern is herringbone, Basket Weave, Brick Pattern.

### Strip Flooring

Strip flooring ranges from 45 X 10 X 225 m.m, and creates a linear effect in a room, often making the room appear larger. Strip flooring generally is considered "traditional" wood flooring.

### Plank Flooring

Plank flooring typically ranges from 125 x 18 x RL. While plank flooring is linear, like strip flooring, its wider widths often create a more casual look. Each plank has a slot (the groove) cut all along one edge, and a thin, deep ridge (the tongue) on the opposite edge. When installed, the tongue of one board fits snugly into the groove of the adjoining board.

## TYPES OF WOOD FLOORING PRODUCTS

### Hard Wood Flooring:

Solid wood flooring is exactly what the name implies: a solid piece of wood from top to bottom. Our core competence is in installing and maintaining hard wood floors for high end residences and commercials. Timbspreads also undertakes large projects in the hospitality industry for prestigious clients across India. Hard Flooring Comes in Three Styles such as Parquet Flooring, Strip Flooring & Wide Planks Flooring.

### Indoor Sports Flooring

Indoor Badminton Shuttle Court, Multipurpose Sports Floorings, Gymnasium Floorings, Auditorium, Home Theatre acoustics flooring, Imported Pre-Finished Hardwood Floorings are done in a wide range meeting the customer needs.

### Exterior Deck flooring

Due to non-slippery surface, these wood flooring are great for wet areas such as surrounding of swimming pools, gardens, parks etc. Apart from this, they can also be installed in the walkways, jogging tracks & outdoor rooms. Easy to install, clean and maintain, these deck flooring are most competitively priced.

### Custom Made Indoor Staircase, Wood Cladding, Wooden Exterior Panels, and Mezzanine etc...

Sustainability is our prime importance. We always provide the best. By clearly understanding our customer's requirement, Timbspreads always uses the product from BONA.

Residential

### About BONA

Bona AB is a family-owned company founded in 1919. With its headquarters in Sweden. Bona's 80 year's experience of taking care of wooden floors. Bona provide products for the installation, maintenance and renovation of wooden floors throughout their lifetime. A portfolio that covers everything from sanding machines, dust containment systems, abrasives and coatings to adhesives and floor care products.

### Wooden Floor Maintenance & Care

Floor Care & Maintenance is made easy in these simple steps:

1. Sweep Wood Floors with a Soft, fine bristle broom
2. Vacuum once or twice a week to remove dirt and sand. Use a soft brush attachment to minimize scratching
3. Since water is one of wood floors worst enemies, get rid of water right away! Remove wet spills ASAP with soft towels or a wet/dry vacuum, and then dry thoroughly.
4. Use a very dry damp mop when mopping polyurethane wood floors, since excess water can seep into seams and ruin a wood floor
5. Use furniture pads to place under table and chair legs and on the feet of dressers and armoires. They can be purchased at a local hardware store or home center.
6. Consider using carpet runners (with non-skid pads) over wood floors in high traffic areas.
7. Install floor mats at each entrance so you don't track in dirt from the bottoms of shoes.

Wood makes one of the most attractive flooring materials. To keep your floor looking attractive for years to come, regular cleaning is the key. Bona wooden floor care system, based on Bona's 80 year's experience of taking care of wooden floors. Professional flooring contractors, cleaning companies and architects rely on Bona products because they are made especially for wooden floors.

## RELISH IN THE GOODNESS OF THE WOODS...

### WHY CHOOSE WOOD AND WOODEN FLOORINGS?

#### Wood Floors are affordable:

Wood floors add value to your residence & it is a lifetime product. They increase in value as your home does. Hardwood floor products are one of the most sought after hard surface flooring in remoulding and new home construction. When other flooring options are looking tired and worn out, wood floors will still look beautiful and timeless.

#### Wood Floors are easy to maintain:

Maintenance of today's wood floors is easy! New technology in stains and finishes call for regular cleaning that takes little more than sweeping and vacuuming; with occasional use of a professional wood floor cleaning product, always making sure your hardwood floors are protected from moisture and heavy wear which creates scratches. Preventive maintenance like area rugs, floor protectors on all furniture on your hardwood floors must be used.

#### Wood Floors are ecologically friendly:

Wood floors are ecologically friendly. Since it is a natural resource, wood is both renewable and recyclable. Many of yesteryear's old wood ships, warehouses, barns, and other structures often find a second life in wood flooring. And, because wood does not collect dust and other allergens, many leading health associations agree that wood floors are the perfect choice for a healthy home.

#### Wood Floors are Healthier:

The Environmental Protection Agency has said that indoor air quality is one of our top health threats. Installed in the home or office, wood floors help contribute to a healthy living environment.

### Why Timbspreads?

Timbspreads has a reputation for Reliability, Excellence and Complete Customer Satisfaction. Our expertise and knowledge allows us to tackle any job how difficult or complicated. We are Specialized in Installations, dust –contained Sanding, refinishing with imported polishes, customs borders & wood floor repairs. We use only the best cured and treated tongue & groove wood flooring. A variety of wood is available for you to choose as well as a myriad of stain color and finishes.

At Timbspreads, we know all about wood. We know how wood behaves in different conditions and how they are suited for various applications. While executing projects, we consider intricate details like the Janka hardness of the timber, the co-efficient of expansion for each percentage of change in the moisture content of timber and so on.

"Given that Timbspreads already know about wood flooring, it seems likely that the study will reveal wood to be an especially green product when compared with other types of floor coverings.

Consumers buying wood species can be reasonably confident that the wood came from a sustainably harvested forest. In study it proved that average annual net growth for hardwoods is greater than average annual removals."
